Hi Shantanu,

It has been a pleasure working with you on the PepsiCo RGM project. 😊

Your contributions towards delivering high-impact and business-critical solutions, especially the complex Brand Ladder reports and PBNA reports, have been commendable. Your strong understanding of the data, reporting tools, and business requirements has consistently stood out. I particularly appreciate your willingness to take ownership of challenging and complex tasks and execute them with confidence.

Another quality that deserves recognition is your commitment to timely deliveries. Despite the complexity of the work, you have consistently met timelines while maintaining a high standard of quality, which has been instrumental in the success of the project.

Thank you for your dedication, positive attitude, and collaborative approach. Wishing you all the very best for your future endeavors. Keep up the same enthusiasm, ownership, and momentum. I am confident that you will continue to achieve great success.

Thanks and Regards

Karan Gupta
